

HERO

INNOVATIVE **COLOR** TECHNOLOGY

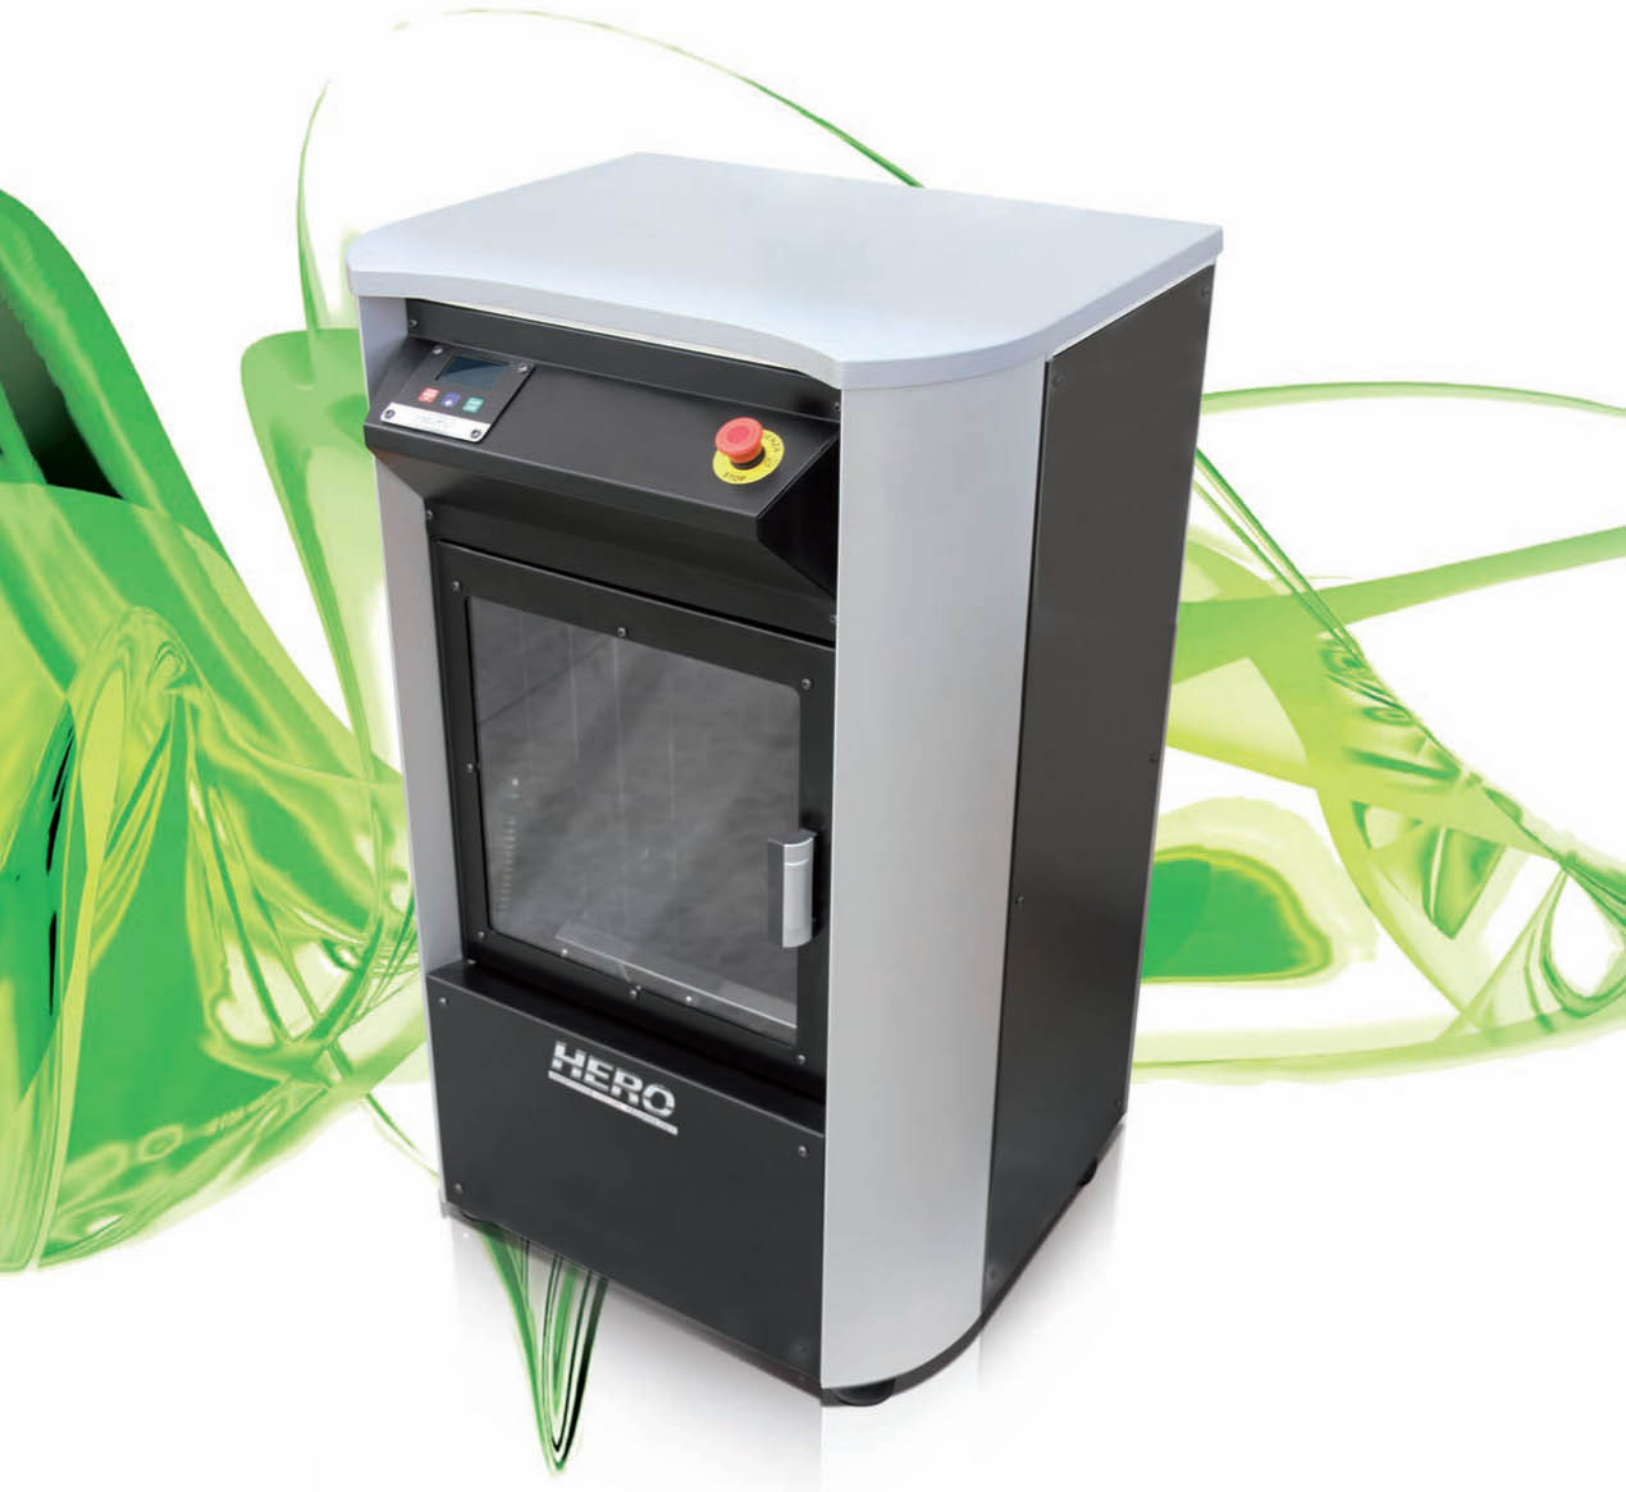

- KEPLERO •
S400
Automatic vibrational shaker

• • KEPLERO •
S400

The Keplero S400 is the latest addition to the HERO's range of mixers and shakers. This vibrational shaker is designed to fit the needs of small and medium-sized points of sale outlets and is particularly suitable for use in DIY stores.

The Keplero S400 quickly mixes small and medium volumes of paint, including the most "difficult" ones. Thanks to its oscillating plate, the Keplero S400 enables mixing of up to 4 small cans/pails of the same size at once: saving time and energy. The Keplero S400 is a simple and durable machine.

- Ideal for DIY shops
- Simple, robust and durable machine
- Option to load more than one small can/pail at once
- Time efficiency
- Automatic detection of the size of the can/pail (small, medium or large)
- 3 different clamping powers according to the size of can/pail
- Front roller and lower positioning of the loading shelf for an easier handling of the heavier cans/pails
- Stainless steel loading plate for an easier cleaning after use
- LCD control panel
- New design to compliment the range of HERO dispensers

Technical features

Maximum size of the can/pail:	Diameter = 340 mm, Height = 400 mm
Minimum height of the can/pail:	70 mm
Maximum loading capacity:	35 kg
Can clamping:	Automatic
Door/shutter:	Transparent door
Emergency switch:	Provided
Door safety lock:	Provided
Timer:	Provided
Main motor:	Single-phase electric motor 0,9 kW - 2 poles - 230 Vac - 50 Hz
Shaking speed:	630 rpm
Maximum noise level:	< 65 dB, measured in accordance with DIN 45.635 (the noise level refers to the unloaded-working of the machine)
Power supply:	230 Vac / 110 Vac - 50 / 60 Hz
Protection level:	IP 00
Weight:	240 kg
Gross weight:	270 kg
Machine dimensions:	W 710 mm x D 625 mm x H 1145 mm
Shipping dimensions:	W 760 mm x D 780 mm x H 1330 mm

HERO is a global company operating for more than 40 years, manufacturing and distributing paint equipment products (automatic and manual colorant dispensers, in-batch and in-can automatic tinting systems, mixers and shakers).

We have approximately 800 clients and our base continues to grow. Our customer portfolio ranges from the main global to local paint manufacturers. To be closer to our Customers, we assemble and service our machines locally through our regional facilities. In addition to our premises in Salmour, Italy, HERO rely on another 3 facilities located in Canada, India and most recently Brazil. We are now able to serve 150 countries across 4 different continents and we employ more than 150 people worldwide. Thanks to the Progressive Cavity Pump Technology (PCP), HERO has grown its presence in the market with nearly 20,000 automatic dispenser with PCP which have already been installed and some 10,000 machines (automatic/manual dispensers and mixers) that are sold every year.

Our main goal is to innovate the color Industry by offering new processes, technologies and services, adding value to the business of our customers.
